## Stain Removal

# EXTRACTOR

## Powder stain extractor for the removal of colored stains, humidity stains, and watermarks

**EXTRACTOR** is a stain remover in a powder form to be mixed with water. The product was developed to extract colored stains and dampness stains from any type of support, even vertical surfaces. The product, thanks to its special formulation, can be used on even the most sensitive, such as polished marbles.

### BENEFITS

- ✓ Powder formula
- ✓ Effective against watermarks and humidity stains
- ✓ Suitable for vertical application

### USES

This product can be used both indoors and outdoors on all construction materials.

### APPLICATION EQUIPMENT

Spatula, Direct application

### APPLICATION STEPS

#### Surface preparation

- Make sure to thoroughly clean the surface removing all dirt and dust from the surface
- Do not apply **EXTRACTOR** on heated surfaces.
- Do not apply **EXTRACTOR** on wet surfaces.
- If the surface has been waxed make sure to remove it
- All surfaces close by that are not to be treated must be protected.

#### Solution preparation

Mix 1 part of **EXTRACTOR** with 1,5 parts of HYDROGEN PEROXIDE at 8% volume or, as an alternative warm water (40-50°C), mixing until an even compound has been achieved.

#### Application

*Before applying the product is necessary to take a preliminary test on an unexposed area or unused piece of material to check the product's suitability.*

- Apply the solution with a spatula to the stained area, making sure to create an even and thick layer of product on the stain.
- Allow the compound to act on the surface from 1 to 3 hours and check now and then if the stain has been removed, by rinsing well with clean water.
- There is not a precise interval of time to recommend, as it could take just a few minutes or several contact hours, even one night, to remove the stain.
- Once the product is removed, wait until the surface is dry to evaluate the achieved result. If the stain has improved but is not completely removed, repeat the application.

#### Resume Surface Use

After rinsing the surface with water, wait for the floor to dry completely before opening to foot traffic.

## PROFESSIONAL LINE

### INSTRUCTIONS AND GUIDELINES

- Do not apply the product on a dirty surface
- Do not apply the product on wet surfaces
- Do not apply the product on heated surfaces
- Surfaces nearby not to be treated must be protected
- To achieve an even result we recommend applying the stain remover by treating areas that are larger than the single stained portion.
- While applying the product the surface must not be exposed to direct sunlight.
- Before applying the product is necessary to take a preliminary test in order to evaluate the product's suitability for use.

### EQUIPMENT CLEANING

At the end of the application, the equipment used can be washed using water

### PHYSICAL-TECHNICAL DATA

Formula	Powder
Color	Beige
Odor	Unscented
Specific gravity a 20°C	432 ± 10 g/l

### STORAGE

Keep the container tightly closed and store in a cool, dry place.

### SHELF LIFE

24 months in the original, sealed packaging, stored in a cool, dry place.

### PACKAGING

1,2 kg buckets – 4 units per box

### SAFETY

When applying the product, always use suitable personal protective equipment and follow the product safety data sheet instructions with care.
